*Hamilton High School*

## FFA

The Hamilton City FFA Chapter is located in the Superior region and is known as the program of choice in Glenn County. Hamilton is a school that prides itself in academics, activities, athletics, and agriculture.

Areas of instruction in agriculture include agriculture mechanics, agriculture sciences, production ag, and floral design. Located on the school site is the student farm which features a hog barn, lamb barn, show barn, greenhouse, mandarin orchard, olive orchard, and crop area. The shop and classroom open to the student quad, welcoming students from all areas of the campus.

Projects on campus have consisted of welding anything from trailers and BBQ's to growing plants for the fall and spring plant sale and 5,000 oak trees for a local restoration project.

Hamilton City FFA is typically the largest group at the Glenn County Fair with approximately 40 hogs, 20 sheep, 10 steers, numerous dairy cattle, and rabbits. In order to exhibit at the fair, students are required to attend 80% of FFA meetings, one occurring each month and maintain a 2.0 GPA.

Active members are able to earn proficiency awards and FFA honors such as the Greenhand, Chapter, State, and American FFA Degree. Each degree is based on hours of agricultural education, hours worked on agricultural projects, and money earned.

FFA is an integral part of vocational education. Join Hamilton City FFA to gain valuable leadership skills and be a member of the largest youth organization in high school.

## Activities

Career Development Events  
Superior Region Meeting
